

Plasma Induction Technology—Outperforms & Outshines

Exterior & Interior Applications for Plasma Induction Lighting

- Parking Garages/Lots
- High Bay Ceilings
- 24/7/365 Lighting Needs
- Climate Controlled Warehouses
- Streetlights
- Recessed Lights
- Wallpacks/Sconce Lights
- Manufacturing/Industrial Settings
- Foyers/Canopies
- Tunnels/Bridges
- Security/Decorative Floodlights
- Walkway/Campus Lights

Before: 175W High Pressure Sodium

After: 80W Induction

Plasma Induction Lighting...The Clear Choice

Performance Attributes	High Pressure Sodium	Metal Halide	Fluorescent	LED	Plasma Induction
100,000 hour rated bulb life 	No	No	No	No	Yes
Reduce energy costs up to 60%	No	No	No	Yes	Yes
Twice the light penetration of LEDs	No	No	No	No	Yes
Lowest operational cost of any light source	No	No	No	No	Yes
10 year or 50,000 hour product warranty*	No	No	No	No	Yes
Operates 700 degrees cooler than HID sources	No	No	Yes	No	Yes
Fixtures can be controlled and dimmed	No	No	No	Yes	Yes
Color Rendering Index 2500 to 6000	No	No	Yes	Yes	Yes
Instant Illumination/ No Cold-Start	No	No	Yes	Yes	Yes
High wattage application	Yes	Yes	No	No	Yes
Virtually maintenance free	No	No	No	No	Yes
Lights do not flicker	No	No	No	Yes	Yes

* 5 year or 25,000 hour manufacturer product warranty; 10 year or 50,000 hour product warranty when installed by a Verigreen ELS approved electrician
