Green Building For Energy Savings and Climate Protection Workshop

May 5, 2011

8:30 am to 2:30 pm

MWCOG Board Room

777 North Capitol St. NE, Ste. 300

Washington, DC 20002

This workshop for local policymakers, codes officials, environmental, planning, and building staff will provide information about advanced green building tools and on effective strategies for applying them to reach energy reduction and climate protection goals. The new green building tool box includes energy benchmarking, green codes, LEED for Existing Buildings, zoning and energy financing mechanisms. An opening plenary will be followed by presentations from regional leaders who are applying these tools, and will allow ample time for peer discussion. *Guests from the private sector, local nonprofits and the research sector are invited to participate.

*NOTE: 20 seats will be reserved for the private sector.
Private Sector Registration Deadline: Apr. 14, 2011
