

**Mid-Atlantic Petroleum Properties, LLC**  
**Presentation/ Handout**

Peter Troilo,  
General Manager

Mid-Atlantic Petroleum Properties is located in Germantown, Maryland. MAPP became a distributor in 1995 and markets in the metropolitan D.C. area. We currently are Chevron, Texaco, Sunoco, and W Express brands. VeraSun Energy is our supplier of E-85 fuels. The ethanol is picked up in Baltimore and mixed with gasoline in Manassas to make the E-85 fuel. Mid-Atlantic Petroleum Transport, LLC is our trucking company that hauls product to our 25 company operated sites and our dealers.

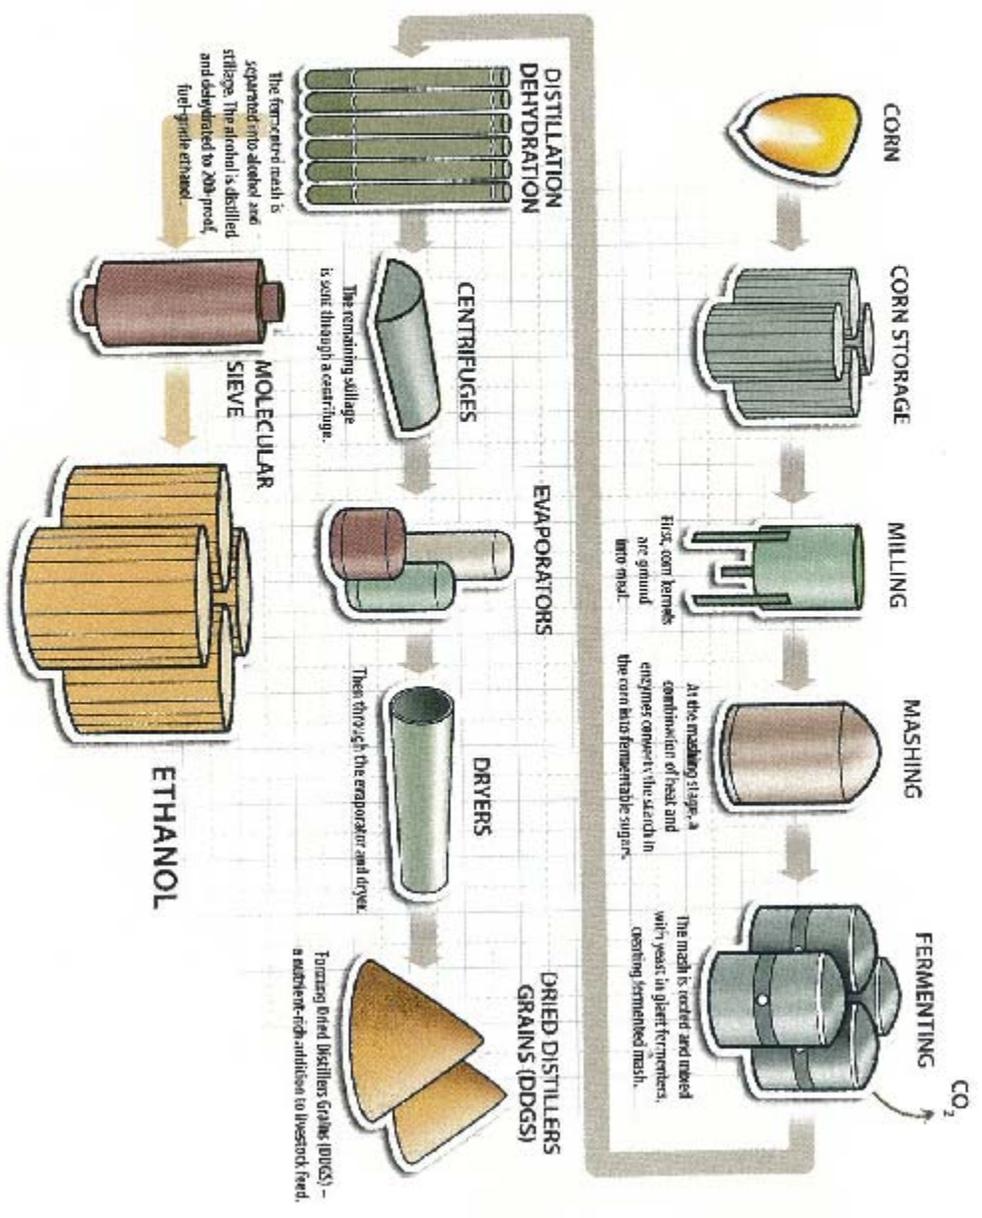

VeraSun is one of the nation's largest ethanol producers. They currently own and operate eleven (11) large dry-grind ethanol bio refineries. The company also has six (6) additional plants under construction or development. Upon completion of these facilities, VeraSun will have an annual production capacity of approximately 1.75 billion gallons.

By the end of 2008, VeraSun Energy will be the largest ethanol producer in the world.

#### Plant Facts:

- One bushel of corn equals approximately 2.8 gallons of ethanol and 18 pounds of distiller grains.
- Approximately 110,000 bushels of corn are ground each day.
- 388 million total bushels of corn are ground annually at VeraSun facilities.

# Ethanol Production Process
