Subject: RE: Need for 2010 conformity network inputs

TPB Technical Committee:

This is just a reminder that we need any updates that you have for the conformity tables so that we can produce 2010 networks. (see below). Please have any updates to us by Wednesday, August 25th.

Thanks.

Jane A. Posey
Transportation Engineer
Metropolitan Washington Council of Governments

Subject: Need for 2010 conformity network inputs

TPB Technical Committee:

As discussed at the July 9th Technical Committee meeting, it will be necessary to perform a conformity analysis on a 2010 forecast year to meet requirements associated with the new 8-hour ozone standard. Because the development of a 2010 network was not anticipated when COG/TPB staff solicited the original inputs for the 2004 CLRP and the FY2005-2010 TIP, a committee member suggested the need to review inputs to ensure the accuracy of project completion dates for 2010. Toward that end, please review the attached draft conformity input tables (highway and transit) to ensure that the completion dates for projects scheduled to be completed by 2010 are accurate in light of funding availability, as shown in the FY2005-2010 TIP, and any other project scheduling / implementation criteria. Please provide a list of any necessary updates to Jane Posey (jposey@mwkog.org), and she will make the appropriate changes to the tables. Please submit your lists by Wednesday, August 25th so that the updated conformity tables can be included in the Technical Committee mailout for September 3.

Thank you.
