II. METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS

This request for proposals is being issued by the Metropolitan Washington Council of Governments (COG) which will be managing the contract on behalf of the following seven Maryland counties: Anne Arundel, Baltimore, Charles, Frederick, Harford, Montgomery, and Prince George's Counties.

The Metropolitan Washington Council of Governments (“COG”) is the regional organization of the Washington area’s 24 major local governments and their governing officials, plus area members of the Maryland and Virginia legislatures and the U.S. Senate and House of Representatives.

COG provides a focus for action on issues of regional concern such as comprehensive transportation planning, air and water quality management, environmental monitoring, tracking economic development and population growth and their effects on the region, coordinating public safety programs, and promoting childcare and housing for the region. COG is supported by financial contributions from its participating local governments, federal and state government grants, and contracts, and through grants and contracts from foundations and the private sector.

III. PROJECT OVERVIEW

The new requirement in the Maryland Phase I NPDES stormwater permit to develop a Good Housekeeping Plan refers to a stormwater pollution prevention plan for County-owned facilities. These include properties where materials such as pesticides, some landscaping materials, fertilizers and vehicles are stored or maintained, and, as stated in the permits, among other things the plan should include a list of onsite materials and activities, a map, and pollution prevention procedures including assessments and trainings.

On November 5, 2021, the Maryland Department of the Environment (MDE) issued National Pollutant Discharge Elimination System Municipal Separate Storm Sewer System (hereafter referred to as “MS4 Permit”) to Anne Arundel, Baltimore and Montgomery Counties, and Baltimore City. On December 2, 2022, MDE issued an MS4 Permit to Prince George’s County, and on December 30, 2022, MDE issued MS4 Permits to Carroll, Charles, Frederick, Harford, and Howard Counties. One of the requirements in the MS4 Permit is to develop, implement, and maintain a Good Housekeeping Plan (GHP) for County/City-owned properties not required to be covered under Maryland’s Storm Water Industrial General Permit. The GHP must be submitted to MDE with the third-year annual report. For those jurisdictions that received their permit in 2021, the GHP must be submitted by December 31, 2024. For those jurisdictions that received their permit in 2022, the GHP must be submitted by December 31, 2025.

The purpose of this solicitation is to contract with a qualified firm to develop Standard GHP template(s) for County/City-owned properties not required to be covered under Maryland’s Stormwater Industrial General Permits where the activities listed in MS4 Permit Part IV.D.4a are performed (Attachment A).

The template should be developed so that participating MS4 jurisdictions can tailor GHPs for the property management activities performed within their individual jurisdiction. The MS4 Permit Part IV.D.4b provides the requirements that must be incorporated in the GHP template(s). MDE has also developed additional guidance (provided in Attachment B).

IV. ACRONYMS

COG	Metropolitan Washington Council of Governments
GHP	Good Housekeeping Plan
IDIQ	indefinite delivery/indefinite quantity
MDE	Maryland Department of the Environment
MS4	National Pollutant Discharge Elimination System Municipal Separate Storm Sewer System MS4 Permit Part IV.D.

V. SCOPE OF WORK

PHASE I

The Contractor must develop standard GHP template(s) and list of training options in accordance with the MS4 Permit Part IV.D.4b (Attachment A).

A. Task 1. GHP Activities

To develop the GHP templates, the Contractor must organize and administer two meetings with the MS4 jurisdictions, COG, and MDE. The intent of the first meeting is to define activities, and the associated criteria and/or thresholds, which trigger coverage by a GHP. The second meeting is for the Contractor to present the draft activities with associated criteria and/or thresholds that require a GHP.

Activities identified in the MS4 permit Part IV.D.4a include:

- Storage of vehicles and equipment
- Maintenance of vehicles and equipment, including washing
- Storage of fertilizers, pesticides, landscaping materials
- Storage of hazardous materials
- Storage of other materials that could pollute stormwater runoff

Other activities that might require a GHP, may include:

- Storage of salt and other de-icing materials
- Storage of solid waste materials

Deliverable: Draft list of the activities, including criteria and thresholds, that would be covered under a GHP must be provided and presented at the second meeting. Jurisdictions, COG, and MDE will have ten business days to review and provide comments. The contractor will have ten business days to resolve comments and provide the final list of the activities,

including criteria and thresholds, to be covered under a GHP. Jurisdictions, MDE, and COG will have five business days to review and approve the final list of activities.

B. Task 2. Template(s)

For Task 2, the Contractor will develop the GHP template(s) that follow the requirements in MS4 Permit Part IV.D.4.b. These requirements include:

- A map template for the locations of properties covered by the GHP
- A list of potential pollutants and their sources that result from the activities identified in Task 1.
- Description of “property management activities” template
- Written pollution prevention procedures designed to reduce and/or eliminate the occurrence of spills, accidental dumping of materials that may result in a stormwater pollution event, stormwater runoff contamination by stored materials, and/or illicit discharges to the storm drain system.
- Written procedures for annually assessing County properties to prevent the discharge of pollutants, spills, and leaks into its MS4. Identify and develop pollution prevention property assessment checklists and written guidance to ensure stormwater pollution events are eliminated to the extent practicable.
- Written procedures for performing stormwater conveyance system inspections for removing debris that may cause clogging, backups, and flooding. Identify and develop checklists and written guidance for property-specific stormwater conveyance system inspections on subject County properties to ensure the free flow of stormwater within the storm drain system.

The template(s) may be developed for all County/City-owned property or separate GHP templates may be developed for properties with similar use (e.g., recreation and parks, schools).

The Contractor must organize and administer up to two meetings with the MS4 jurisdictions, COG, and MDE for Task 2. The first meeting will discuss and define the potential pollutants associated with the Task 1 activities (i.e., landscaping material, mulch), as well as the written pollution prevention procedures that must be included in the GHP. The second meeting will be for the Contractor to provide and present the draft GHP template(s).

Deliverables: Draft GHP template provided and presented at the second meeting. Jurisdictions and MDE have 15 business days to review and provide comments on the draft. The contractor will have 10 business days to resolve comments and provide the final template(s). Jurisdictions and MDE have 5 business days to review and approve the final GHP template(s).

C. Task 3 Recommend Training

For Task 3, the Contractor shall research and identify appropriate training materials that will fulfill this requirement for the GHP. These training programs may already exist for stormwater pollution prevention plans. The training types include, but may not be limited to,

classroom, virtual, in the field, and toolbox talks. The list should include, but not be limited to a description of the training, the activities and procedures covered by the training, vendor, type of training (e.g., in person or virtual), length of training, and cost.

Deliverable: Detailed descriptions of existing training programs to be delivered concurrently with the final GHP template(s) (Task 2).

D. SCHEDULE:

All final deliverables must be delivered no later than November 30, 2023, allowing local jurisdictions time to add jurisdiction-specific information per Permit requirements.

Prior to beginning Task 1, the Contractor should hold a kick-off meeting with the Jurisdictions and Contract Manager. The kick-off meeting should be held within two weeks of the Notice to Proceed.

Task 1 deliverables must be completed within 12 weeks of the Notice to Proceed

Task 2 and 3 deliverables must be completed within 16 weeks of completing Task 1.

PHASE II

Under this Phase working with individual jurisdictions Task Orders may be issued to the contractor and will contain a detailed scope of work and a request to submit a DBE Plan and cost proposal. COG, at its discretion, may request additional information as part of the Contractor's response to individual Task Orders to evaluate and understand the level of effort and cost proposed to complete the requirements of the scope of work.

The successful proposer(s) awarded this IDIQ contract is not guaranteed any minimum award. All Task Orders are subject to available funding and will be issued on an "as needed" basis.

Phase II is for the ongoing development of the Good Housekeeping Plan for interested jurisdictions in accordance with the template(s) developed in Phase I.

XI. METHOD OF PROPOSAL EVALUATION AND SELECTION

The proposals will be evaluated by a technical selection committee. The selection committee may hold, at COG's option, a pre-selection meeting with the top-ranked Offerors.

The final recommendation for selection to the COG Contracting Officer may be made based upon interviews and/or a best and final offer submitted by the Offerors, if required by the selection committee.

In evaluating the proposals, the following factors will be considered, with points awarded up to the maximum shown on the next page.

Factor	Points
Approach to project tasks spelled out in the Scope of Work	45
Relevant experience with the Scope of Work requirements, including thorough understanding of Maryland's MS4 permit, examples of similar work performed, and experience facilitating group meetings (Business Reference Sheet – See Attachment C)	20
Relevant experience of Key Staff proposed	10
Pricing and Cost (i.e., burdened salaries by staffing level, low/high range for sample work products)	10
DBE Plan	15
Total Points	100

XII. DISADVANTAGED BUSINESS ENTERPRISE

DBE participation is a factor in Phase I. It is expected that the winning consultant will be a DBE firm or will utilize DBE firms in their work on Phase I and will have to provide DBE Forms demonstrating a good faith effort to utilize DBE to the greatest extent possible on this and any future Task Orders.

COG's DBE Policy may be viewed on its website
<https://www.mwcog.org/purchasing-and-bids/dbe-policy/>.

COG has determined that consideration of DBE participation will be included in the evaluation factors for Phase I of this RFP.

For Phase I and at a later time for specific Phase II Task Orders a total of 15 possible points (out of a maximum of 100 points) may be awarded for DBE

participation, as measured in dollars, either as the prime contractor or "subcontractor". In the event of a tie in the average total score between two or more proposals, the proposal with the largest percentage of DBE participation, as measured in dollars, will be awarded the contract.

DBE points are to be awarded as follows:

<u>PARTICIPATION</u>	<u>POINTS</u>
10% to 14%	3
15% to 19%	6
20% to 24%	9
25% to 34%	12
35% or more	15

For the sake of scoring, percentages will be rounded down rather than up. A proposer must meet the minimum scoring percentage to receive full points.

A prime contractor with valid DBE certification will receive 100% participation points.

Federal Law – CFR Part 26.37 (Monitoring Performance) requires COG to include a monitoring and enforcement mechanism to ensure that work committed to DBEs at task order award is performed by DBE's.

To comply with this requirement, the Contractor is required to provide to COG DBE Compliance Officer with monthly reports on DBE payment(s). This may involve monthly reporting via email.

COG is currently testing a DBE Reporting Software system and the contractors chosen under this master contract award may be required to report through that system rather than direct email. Please save any questions relating to reporting for the task order process.

See the sample DBE Plan form Attachment D. This does not need to be filled out at this time.

XIII. COOPERATIVE RIDER CLAUSE

- A. COG, as an agent to member agencies, extends the right to utilize all of the terms, conditions, specifications, and unit or other prices of any contract resulting from this RFP to other public and non-profit agencies.

1. Termination for Convenience

COG, by written notice, may terminate this Contract, in whole or in part, at any time by written notice to the SUBRECIPIENT when it is in COG's best interest. If this Contract is terminated, COG shall be liable only for payment under the payment provisions of this Contract for services rendered before the effective date of termination.

2. Termination for Default [Breach or Cause]

If the SUBRECIPIENT fails to perform in the manner called for in this Contract, or if the SUBRECIPIENT fails to comply with any other provisions of the Contract, COG may terminate this Contract for default. Termination shall be effected by serving a notice of termination on the SUBRECIPIENT setting forth the manner in which the Contract is in default. The SUBRECIPIENT will only be paid the contract price for services performed in accordance with the manner of performance set forth in the Contract.

If it is later determined by COG that the SUBRECIPIENT had an excusable reason for not performing, such as strike, fire, or flood, events which are beyond the control of the SUBRECIPIENT, COG, after setting up a new delivery of performance schedule, may allow the SUBRECIPIENT to continue work, or treat the termination as a termination for convenience.

4. In the event COG elects to waive its remedies for any breach by the SUBRECIPIENT of any covenant, term or condition of this Contract, such waiver by COG shall not limit COG's remedies for any succeeding breach of that or any other term, covenant, or condition of this Contract.
