QUESTIONS/ANSWERS

1. Is the 10 videos a fixed/firm number? Conducting 10 days of production and producing 10 separate short form documentaries all within a \$20,000 budget is pretty challenging. Is there any flexibility with either the budget, or number of deliverables?

The number of videos—10 in total is a firm requirement. However, the budget of \$20,000 is not necessarily fixed, and there may be flexibility depending on the scope and production needs.

2. What is the anticipated length for each of the short documentaries?

Each Video length should be 1 minute and 30 seconds.
