

Our garage is under new management. Here are the updated parking instructions.

Address: 777 North Capitol Street NE, Washington, DC 20002

COG Main Number: (202) 962-3200.

The COG website has helpful directions to our building. You can find them here:

<https://www.mwcog.org/directions/>

Enter the garage. Drivers enter from 1<sup>st</sup> Street NE. You will see a loading dock to your left, continue straight through the tunnel and open area between the buildings into the second garage entrance. This second garage is 777.

Note: If you miss G Street NE from N. Capitol Street NE, take the immediate next street G Place. At First Street NE, turn left and follow the same directions above for garage entry.

Daily (or evening) parkers will have a ticketless entry and exit with convenient paying or validating options.

Pull up to the gate.

Press the touch screen button titled 'ticketless entry.'

Once the button is pressed, there will be a keypad on the screen. Type in your cell phone number, and the gates and door will open.

You will receive a text message that will allow you to pay for parking by phone; however, you are not required to do so and can pay at the exit.

Payment Options:

**Pay by phone:**

If you choose to pay by phone, the system will charge a \$0.99 convenience fee.

**Pay by credit or debit card upon exit:**

No additional fee to pay by card upon exit.

Again, you are not required to use the phone text or sign up in the system to pay.

COG and TPB will continue to provide validation for parking. Please ask a staffer for a parking validation.

When you are ready to leave:  
Use the bar code sticker provided to scan the barcode reader at the exit.

Once the barcode has been read, the gate will open and you can exit.

If you do not have validation:

Pull up to the exit gate. The License Plate Reader system will have read your license plate, and the amount owed will be displayed on the screen. If by chance, your plate was not read properly, enter your phone number just how you did on entry, and it will calculate your payment.

There is a place to pay with credit cards, Apple Pay or Google Wallet. Once paid, the gates will open, allowing you to exit.

If at any time you are at the exit and need assistance, press the assistance button located on the bottom left of both the entrance and exit kiosk, and someone will assist you right away.
