CLEAN AIR PARTNERS EDUCATION PROGRAM

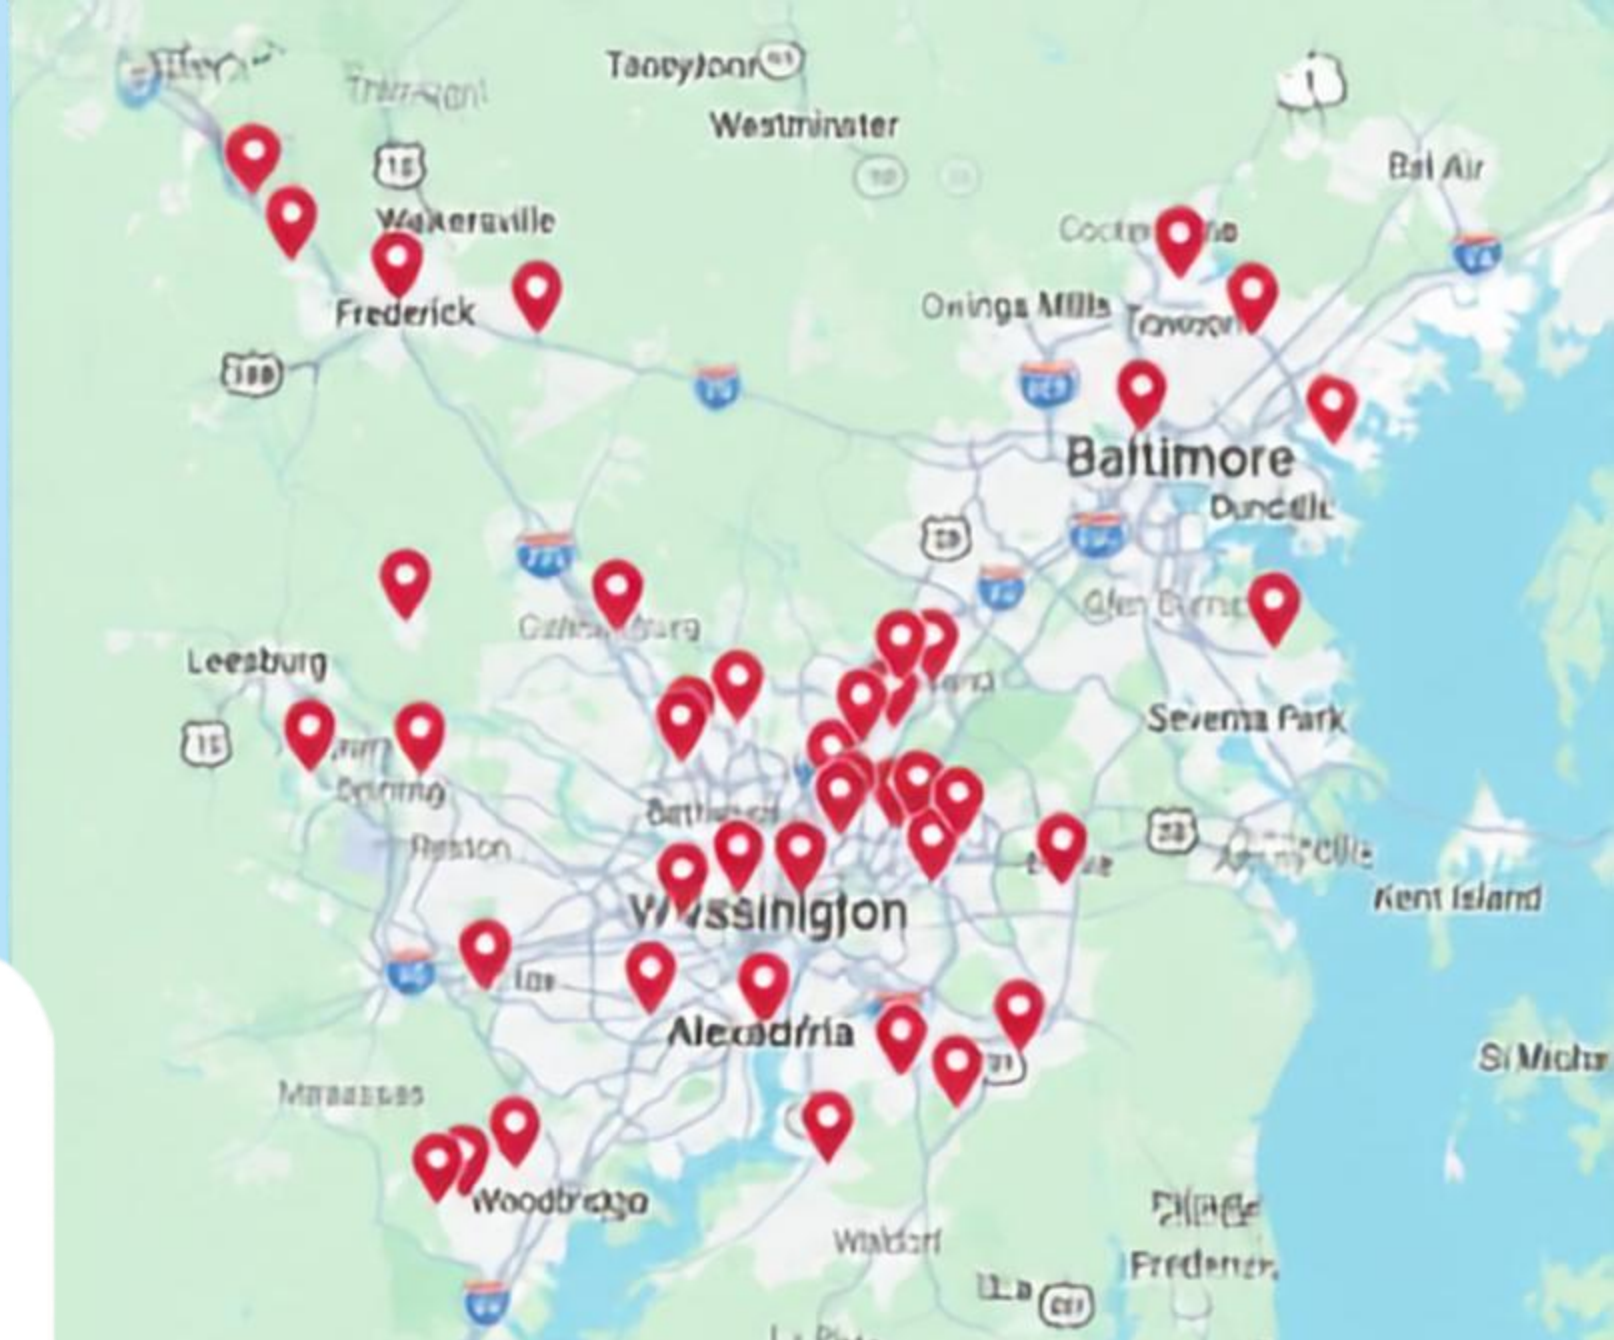

MWAQC | October 21, 2026

Meeting Strategic Planning Goals

Build on long-term efforts to educate students, elected officials, media influencers, and the community at large about the impacts of air pollution and climate change in order to increase awareness, drive behavior change, and promote Clean Air Partners as a trusted source of information throughout the Baltimore Washington region.

Transform awareness into action to protect air quality

Schools partnering with Clean Air Partners for the 2026-2027 school year

PROMOTING ON THE AIR CURRICULUM

An interdisciplinary, placed-based standards aligned curriculum for K-12 classrooms in the Baltimore–Washington Region.

Local Air Pollutants

Environmental Health Gaps

Build strong communities

DC, MD & VA
Standards Alignment

The Lead Teacher Learning Community: Train-the-Trainer Approach

- 
- 
- Builds educator leadership across DC, Maryland, and Virginia
 - Empowers lead teachers to mentor peers; multiply impact
 - Support underserved districts and communities
 - Strengthens teacher confidence, capacity, commitment
 - Expands student access to On the Air

Clean Air
Partners

OUTREACH/PARTNERSHIP OPPORTUNITIES

Table at school and community events to engage students, families, and educators

Judge science fairs and support student environmental inquiry, college and workforce exploration

Student internships connected to air quality, STEM, and civic engagement

Co-present with Lead Teachers at local conferences

Represent Clean Air Partners at relevant meetings, workshops, and conferences and serve on external outreach committees

REGIONAL BENEFITS

- Shows air quality is a tangible environmental issue and impacts our regional quality of life
- Bridges classroom learning to workforce and college/career exploration and preparation
- Equips students with the knowledge and confidence to become agents of change in their communities—future leaders

Agents of Change
