Governments

**COG Room 3 (First Floor)**

777 North Capitol Street NE  
Washington, DC 20002

## Draft Agenda

<u>Time allotted</u>	<u>Topic</u>	<u>Presenter</u>
10:00 – 10:05	<b>1. Call to Order</b>	<b>Joan Kelsch, IGBG Chair</b> <b>Erica Bannerman, Co-Chair</b>
10:05 – 10:10	<b>2. Approval of July 12, 2012 Meeting Summary</b>	<b>Chair</b>
10:10 – 10:30	<b>3. USGBC'S Building Performance Partnership</b> USGBC's Building Performance Partnership (BPP) is a comprehensive data collection and analysis infrastructure that receives data from LEED-certified projects, both commercial and residential. Energy and water usage data is shared through ENERGY STAR'S Portfolio Manager for commercial buildings and WegoWise for multi-family residential units.	<b>Lonny Blumenthal, USGBC</b>
10:30 – 10:50	<b>4. Regional Green Building Case Study</b> The <i>Regional Green Building Case Study</i> is a multiyear project to collect and analyze post-occupancy data from LEED® certified projects in Illinois. The total number of projects in the study is 51, including 19 projects from the first year.	<b>Kathryn Eggers, Center for Neighborhood Technology – Energy</b>
10:50 – 11:10	<b>5. Seattle 2030 District</b> The Seattle 2030 District is an innovative, private-sector led project attempting to create a groundbreaking high performance building district in downtown Seattle. District members are required to share, under proprietary agreements, building energy, water, and transportation data, join the Seattle Climate Partnership, enlist in ENERGY STAR Portfolio Manager, and submit LEED buildings to USGBC's Building Performance Partnership.	<b>Brian Geller, Executive Director, Seattle 2030 District</b>
