WMATA Accessibility Advisory Committee (AAC) Report

Focus areas:

1. Red line closures between Friendship Heights and North Bethesda. Closed stations are Bethesda, Medical Center, Grovesnor/Strathmore
 - a. Dedicated bus lanes have been established with buses waiting at each station to provide shuttles between stations. These include accessible buses.
2. Wayfinding signage has been a concern for low-vision folks. In particular, there is concern about the direction the information is portrayed. A subcommittee was formed to explore options to ensure easy to follow directions
3. A survey of accessible restrooms was performed with a subsequent plan established. Please see attached report.
4. Emergency preparedness for the trains is being planned. Training and communication are planned both internally and externally to the general public.

Respectfully submitted,
Debby Fisher
